

# Fall is in the air!

Fall is a beautiful time of the year. Below are some items to note:

- **Fall Garage Sale** Just a reminder that the Meadow Creek garage sales will be held Saturday, Sept. 17th. Good luck to all of you who are participating this year.
- **Heat** The boilers will be turned on by Friday, Sept. 23rd. In the mean time to help keep the units warmer during the cool evenings make sure your windows and storms are closed and your a/c cover is on. If you use a space heater of any kind, please remember, never leave it unattended.
- **A/C Covers** The office is current working with a vendor to supply these and we will keep you informed as to cost and availability.
- **Garden Hoses** The hoses throughout the property will be picked by Oct. 15th. If you have a hose of your own out by the building please remove it by that date or it may be picked up as well.
- **Silcocks** The outside silcocks will be shut off by Oct. 20th. If you have a shut off in your unit you will receive a notice of the exact date this will be done.
- **Parking Lots** The lots will be swept and restriped in mid to late October. This phase of the project will again require that all vehicles be removed. We will post notices again when the exact dates have been determined.
