

Air Conditioner Covers

We now have air conditioner covers available in our association office for sale. They are the same as the old ones. Sorry it took so long, but it took time to find someone who sold them and once ordered they were special order, thus the long wait.

The price for the covers are \$63.00 and it does include the installation hardware. The covers are hard vinyl, which manufacture with fuel and with the price of fuel rising they have now increased the cost of these covers.

If you are interested, please stop in to see them or purchase one.
